SPECIAL ADVANTAGES OF THE BREITKOPF & HÄRTEL EDITION

Each vocal score is furnished with a detailed introduction by Carl Waack, which contains everything worth knowing about the history and composition of the work in question.

Each vocal score is furnished with a short argument by Carl Waack, which explains the course of the action, the arrangement of the act, etc.

Each vocal score is further furnished with a numbered Table of Motives printed in Musical notations (drawn up by Carl Waack), which can be unfolded and consulted while playing.

To each vocal score is attached an Index to the Motives, in alphabetical order, indicating the pages on which the motive in question occurs in the vocal score. In the musical part, each motive is indicated by a corresponding number, printed unobtrusively so as not to confuse the player, so that all the motives that occur are recorded in the Table of Motives in Musical notation, and, moreover, every motive indicated by a number in the vocal score can readily be recognized and then be identified by means of the Table of Motives in musical notation.

Each vocal score is ornamented by an illustrated cover designed by Franz Stassen, who, more than any other German painter, has entered into the spirit of Wagner's creations, and has designed frontispieces for this edition, such as probably no other edition has yet been furnished with. The notes of the scores are large and can easily be read, the letter-press is clear and distinct, and the whole is printed on paper of the most superior quality.

Special attention has been paid to the artistic finish of the binding. The limp covers are of red grained cloth, which has lately become so popular. Each cover is ornamented with a suitable vignette by the well-known artist Lina Burger, which is stamped in real gold leaf on the upper left hand corner of the cover. The use of real gold leaf renders the vignette untarnishable.

The strong cloth bindings of this edition will prove an ornament to any library; for the covers Franz Stassen's beautiful drawings have been utilized, which also decorate the paper-covered volumes. These covers are carried out in an artistic shade of grey, against which the drawing, which is printed in black, and the gold lettering of the title stand out in harmonious relief. The lining paper further enhances the handsome appearances of these volumes.

All these advantages combine to make the Breitkopf & Härtel Edition of Wagner's vocal scores a standard edition which it is impossible to surpass in its excellence and completeness.

Vocal Music

Arrangements for One Voice with Pianoforte Accompaniment

PROBABLY no branch of executant music has felt the influence of Wagner's compositions so deeply as the art of singing. Wagner not only opened up new possibilities for singers, but confronted them with new problems which could only be solved by special study. Without Wagner it is not possible to give up-to-date instruction in singing, and Wagner, in his great compositions, has given us so large a number of passages suitable for detached performance, that it is not easy to select what is best from such an abundance of material. Emil Liepe, on behalf of Messrs. Breitkopf & Härtel, has fulfilled this task with rare taste and great discrimination, and we owe to him the compilation and arrangement of the standard Album of Selected Excerpts and the 11 Albums of selections from the 11 Music Dramas. Liepe, who is himself an interpretative artist and teacher of singing, has so arranged these Albums, which are published for high and low voice, — that they will provide all who desire to become thoroughly acquainted with, and render Wagner's vocal compositions, with an unending source of delight as well as an indispensable volume for study. The extraordinary discrimination shown in compiling these albums is unequalled and the artistic cover design by Franz Stassen gives them a most attractive appearance.
